

Hello,

We are pleased to inform you that we are the official vendor of AmiBroker for India. As you might be knowing, **AmiBroker**, (<http://www.amibroker.com/af.php?id=india&target=/>) is the world's leading **advanced Technical Analysis and Charting Software**. Kindly visit us online at <http://www.tradinganalysis.co.in> to know more about AmiBroker.

Regarding AmiBroker Editions :

AmiBroker comes in 2 editions, Standard and Professional. While both editions have the capabilities to show real-time charts, AmiBroker Standard Edition lets you see real-time charts upto 1 min (smallest candle) and do corresponding analysis (Scanning / Exploration / Back-testing and Optimization). AmiBroker Professional does not have any such limitation and can let you see charts of any duration (5 sec., 15 sec., or even tick chart) and do corresponding analysis. There are other differences too and for detailed comparison, please visit <http://www.tradinganalysis.co.in/page.php?page=Version-Compare> At any time, you can upgrade from Standard Edition to Professional Edition.

AmiBroker Price Structure :

AmiBroker Standard Edition : **Rs.9,950/-**

AmiBroker Professional Edition : **Rs.13,925/-**.

AmiBroker Ultimate Pack Pro : **Rs.20,425/-** which consists of :

- AmiBroker Professional Edition,
- AmiQuote (data software which downloads EOD quotes from Yahoo, MSN and Google Finance as well as historical intraday data of Forex (US Market only)) and,
- AFL Code Wizard (a utility for users to write their Buy-Sell-Short-Cover rules without having to know the AFL - AmiBroker Formula Language).

The above prices are inclusive of 4% VAT and Tax Invoice will be emailed to all clients.

AmiBroker is a non-subscription type of software meaning, once you purchase it, **it is yours for lifetime** and you don't have to pay any charges further for AmiBroker. But as every charting / analysis software needs data, AmiBroker too will need data to analyse upon. That will be the only recurring expense at your end.

Real time Data for AmiBroker :

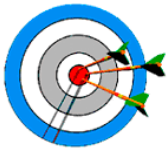

AmiBroker is used worldwide by a multitude of traders who trade on Stocks, Futures, Options, Currencies, ADRs, MFs, etc., hence AmiBroker has isolated itself from the data vending part. Each user subscribes for the data that he is interested in, from the data vendor of his choice and as per his requirements. Being one of the most popular softwares, each data vendor invariably has some dedicated procedure to import their data into AmiBroker.

Having said this, for people trading on Indian Exchanges, we have various data packages to suit to their Intraday / EOD needs. Alongwith AmiBroker, you can also subscribe for real-time / EOD data with us. We have tied up with True Data India, **commonly known as TDI**, to give our customers what they need. TDI's unique feature is that it lets you import data from Yahoo and/or PIB, from the same application, without any extra cost. It means that, if you are using Power India Bulls Account, you can import data supplied by PIB directly into AmiBroker using TDI i.e. all Scrips which you see in PIB will have their graphs displayed in AmiBroker. If you do not have PIB Account, it still lets you import data from Yahoo real-time and that too with zero delay (only NSE). Under the same package, you can also download EOD data of BSE and NSE Scrips, NSE Futures and Options alongwith indices, right from inception of BSE and NSE. All this at a flat fee of Rs.546/- per month (Rs.5460/- annually).

Backfill :

If you need historical intraday data, TDI allows you to backfill 5 days of data. If you need backfill of more days, you can buy intraday historical data as per prices given below.

Backfilling of historical data will have to be done only once and it stays in AmiBroker database forever (even if you stop data subscription).

Data - Price Table			
Real time Data (TDI) - Download 5-day Trial http://www.truedataindia.com/TDII/TDI-I.zip			
1 to 5 months	Rs.546/-	Downloads RT data from Yahoo for NSE Spot stocks in tick format (without delay) + downloads EOD data of BSE/NSE stocks, indices and NSE F&O.	
6months	Rs.2,978/-		
12months	Rs.5,460/-		
Current IEOD Data of NSE Stocks, Futures & Indices (mailed everyday evening) Download Sample Data : http://www.tradinganalysis.co.in/resources/20090828-5MIN.rar			
	Tick Format	1min Format	5min Format
1 to 5 months	Rs.552/-	Rs.442/-	Rs.331/-
6 months	Rs.3,033/-	Rs.2,427/-	Rs.1,820/-
12 months	Rs.5,515/-	Rs.4,412/-	Rs.3,309/-
Historical IEOD Data of NSE Stocks, Futures & Indices (available from February 2007) Download Sample Data : http://www.tradinganalysis.co.in/resources/20090828-5MIN.rar			
	Tick Format	1min Format	5min Format
1 to 5 months	Rs.441/-	Rs.331/-	Rs.221/-
6 months	Rs.2,427/-	Rs.1,820/-	Rs.1,214/-
12 months	Rs.4,412/-	Rs.3,309/-	Rs.2,206/-

Links :

Given below are the links from where you can download and install AmiBroker Demo and real-time data trial. Please see the videos to know how to integrate real-time data with AmiBroker. It is recommended that you read the page <http://www.tradinganalysis.co.in/page.php?page=Ami+Data+Trial> thoroughly for smooth installation / integration of AmiBroker with RT Data.

AmiBroker Trial Download :

You can download latest AmiBroker Version 5.20 trial which will work for 30 days on your PC. During this time, you can test AmiBroker thoroughly for all of its functions, advanced features, etc.. Once you are convinced about AmiBroker's usefulness for a serious trader like you, you can then proceed ahead to purchase the same. No prior registration or demo license is necessary for the demo. You can download AmiBroker Trial version from this link : <http://www.tradinganalysis.co.in/resources/AmiBroker520.exe>

The only limitation of AmiBroker trial version is, it does not allow you to save database i.e. all changes are lost once AmiBroker is closed, trial version runs in Standard Mode and any Automatic Analysis multiple-symbol operation (scan/exploration/bactest/optimize) is limited to 5 symbols. Apart from this, there is no other restriction and you may check all of its features including advanced ones, without any restrictions.

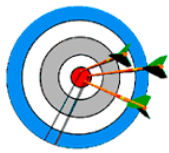

Real Time Data Trial Download :

You can directly download the 7 day trial (no license required) from the link : <http://www.truedataindia.com/TDII/TDI-I.zip>

Comprehensive help for TDI installation and its integration with AmiBroker is available at : <http://www.truedataindia.com/tDIhelp>

Help Videos :

It is recommended that you see the videos and that too in the given sequence and follow in similar fashion at your end for smooth installation and integration experience.
